

Comacchio MC-E 15 Drilling Attachment

The Comacchio MC-E 15 is a versatile hydraulic drilling attachment specifically designed for excavators, making it ideal for projects in tight or restricted spaces such as docks, road edges, rock walls, or slopes. Its key strengths are adaptability and maneuverability, allowing for a wide range of drilling applications including ground improvement, anchors, micropiles, soil stabilization, geothermal, and water well projects. With the ability to mount various rotary heads and hydraulic drifters, and the convenience of remote or in-cab operation, the MC-E 15 excels in boosting efficiency, productivity, and jobsite safety—even in the most challenging environments.

Comacchio MC-E 15 Specifications

Technical Specifications

Parameter	Value
Excavator Class	8-15 tons
Weight	3,300 - 3,500 lbs
Mast Feed Stroke	11.6 - 15.1 ft
Feed Force	5,620 lbs
Rotary Torque	649 - 3,688 lb*ft
Clamp Range	1.8 - 6.7 in
Rotary Speed	64 - 560 rpm

Key Features

- For hydraulic excavators
- Designed for confined/limited access
- Remote-control or cab-operation available
- Patented mast support
- Wide array of compatible rotary heads

Options & Accessories

- Rod carousel, adapters, guides
- Mountings for jet grouting, rotary drilling, percussion
- Additional site and operation accessories
